

Environmental Policy Statement

The Directors and Management of Tyson H. Burridge Ltd recognise their responsibility to manage the environmental impacts of our activities and services.

The Company is committed to implementing and continually improving an environmental policy which is relevant to all aspects of the Company's operations.

Objectives

In support of the environmental policy the management have identified the following objectives:

- To identify the significant environmental impacts of our activities
- To continually improve our environmental performance
- To comply with relevant legislation and Health and Safety regulations
- To prevent pollution and minimise our inputs of utilities and resources
- To reduce the amount of waste produced for disposal
- To ensure that environmental responsibilities are defined, communicated and understood at all levels within our organisation
- To ensure that suppliers and contractors understand and adhere to the environmental policy
- To investigate and act upon any environmental concerns promptly
- To reduce emissions to the atmosphere through an ongoing fleet replacement programme, introduction of lower emission engines and minimising empty mileage

N. A. Robinson

Director
